## The KINDLE Journey

Each of four 8-week KINDLE Journey Guides has five Christ-like disciplines, or practices, designed to strengthen your understanding of and commitment to leading your life as a Christ-like servant wherever you are and to helping others do the same.

**On each Journey, you have a unique opportunity to Engage God, God's People, and the World.**

You will also have the chance to set a personal growth plan and discover the energy and joy that comes as you see the growth God provides in the process.

## Engage God

**At Table.** Each day for five days, you will Engage God by considering a Scripture and how God is inviting you to put it into practice. Try it out!

**Read and Highlight: Psalm 46**

**Words or phrases that catch my attention:**

**Major Thought:**

**What impresses me and what I'll do about it:**

**What does this Scripture lead me to pray about?**

## Engage God's People

**At Temple.** You will gather for 1 hour each week with 3 other people (a KINDLE cluster) through an 8-week Journey Guide. Clusters meet at a time and place that's mutually convenient – in homes, workplaces, coffee shops, and sometimes at church.

As you meet, you will experience the opportunity and privilege that comes through gathering with other growing Christ-like servant leaders for support, encouragement, and accountability. People share what God has been showing them and what they're doing about it, you will be enlivened for the coming week. You will also grow in sharing the gift of prayer support.

## Engage the World

**Everyday Missionary.** As you Engage God by listening to His Word and putting it into practice, you'll find that God strengthens your identity as a Christ-like servant leader and empowers you to be *Christ's intentional and engaging presence in your home, workplace and community.*

## FAQs

**How much preparation for the cluster meeting will participants be asked to do?** This depends on the individual, but normally, 10-15 minutes a day to read and respond to the Bible selection.

**When do clusters meet?** This varies, depending on when cluster leaders are available. Over time, as leaders develop others who can lead the process, and the number of clusters increases, there will be more options.
